6. Please identify any problems or changes in your training project that will affect the budget, scope or timeline of the project. Is your training on schedule? What are the reasons for any difficulties or delays? Are you over budget/under budget? Have you had to change the initial scope? The CHAP Training was completed on schedule with no problems identified.

The project was completed on budget, we did however do a LIBR to move \$10,000 from Contractual to Personal Services because the individual was an employee instead of a contractor.

Please provide an explanation to this change and your resolution to the variance. N/A

7. How are you or will you be evaluating the individuals being trained to ensure competency, skill level and understanding? (Testing, assessment, etc)

All BBAHC employees are evaluated annually, including individual competency assessments.

CHAP Forum trainees, through observation during the training and with ongoing assessments, and use of evaluation after each training session.

8. Please identify areas that we can assist you in the future. BBAHC provides this opportunity for Health Aides every other year. We will need funding for a similar project in 2011.
